

PRIVACY POLICY

Cube Fall — Version 2

Effective Date: September 16, 2026

Welcome to Cube Fall ("the Game"), developed and published by Maude's Games.

Cube Fall is a fast-paced platform survival game in which players control a cube while the game environment continuously moves upward. Players must move left and right, jump between platforms, avoid falling, escape dangerous spikes, navigate moving and breakable platforms, and survive for as long as possible.

This Privacy Policy explains how Maude's Games collects, uses, discloses, stores, and protects information associated with your download, installation, testing, and use of Cube Fall.

At Maude's Games, we respect player privacy and believe that games should collect only the information reasonably necessary to operate, maintain, support, secure, and improve the player experience.

By downloading, installing, testing, or using Cube Fall, you acknowledge that you have read and understood this Privacy Policy.

1. Developer Information

Developer/Publisher: Maude's Games

Contact Person: Natasha Maude Wafula

Support Email: info@seekemhub.com

Business Address:

260 Newport Center Drive

Newport Beach, CA 92660

United States

2. Account Registration

Cube Fall does not require players to create an account, profile, username, password, or membership in order to play the current version of the Game.

Maude's Games does not intentionally require players to provide:

- Full legal name
- Mailing address
- Telephone number
- Date of birth
- Government identification
- Financial information

- Precise location
- Contact lists
- Photos
- Biometric information
- Social media credentials

to access normal gameplay.

If account-based features are introduced in a future version, this Privacy Policy will be updated before those features are made available.

3. Information You Voluntarily Provide

You may voluntarily provide information if you contact Maude's Games for technical support, bug reporting, gameplay problems, testing feedback, compatibility problems, feature suggestions, general questions, or privacy requests.

Information you voluntarily provide may include your name, email address, device model, Android operating system version, description of the issue, screenshots, screen recordings, crash information, gameplay observations, and other files or information you voluntarily include in your communication.

Information submitted through support communications is used primarily to investigate and respond to your request.

Please avoid sending sensitive personal information that is unnecessary for resolving your issue.

4. Game Technology

[Confirm and complete: name the engine/framework Cube Fall is built on, e.g., Unity, and list any bundled SDKs (crash reporting, ads, analytics) that are actually enabled in the shipped build.] Any engine-provided or SDK-provided service that independently collects player information will be identified here, and this Privacy Policy will be updated to reflect the actual technical stack before or promptly after each release.

5. Technical and Diagnostic Information

Depending on your device, Android operating system, Google Play services, application configuration, and technical requirements of the Game, certain technical information may be generated or processed automatically, including device model, device manufacturer, Android operating system version, application version, device language, screen resolution, device performance information, crash information, error logs, diagnostic information, installation information, application stability information, and compatibility information.

This information may be used to identify crashes, diagnose bugs, improve compatibility, maintain application stability, and improve the gameplay experience.

Maude's Games does not use this information to intentionally determine your real-world

identity.

6. Gameplay Information

Cube Fall may save gameplay-related information locally on your device so the Game can function properly and preserve appropriate player preferences, including current score, highest score, survival progress, gameplay settings, audio or sound preferences, control preferences, game configuration, and other progress-related information necessary for gameplay.

Cube Fall includes gameplay mechanics involving different types of platforms, including standard platforms, moving platforms, breakable platforms, and hazardous spike platforms. Unless a future version specifically introduces online storage, multiplayer functionality, online leaderboards, cloud synchronization, or another network-based gameplay feature, gameplay information stored locally on your device is not intentionally transmitted to Maude's Games.

7. How We Use Information

Information associated with Cube Fall may be used to operate, maintain, and provide gameplay functionality for the Game; save applicable local preferences; diagnose crashes and investigate software bugs; correct technical errors; improve application stability, device compatibility, gameplay performance, controls, and responsiveness; protect the integrity of the Game; respond to customer support requests; evaluate testing feedback; detect technical misuse where reasonably necessary; maintain security; comply with applicable legal obligations; and protect the rights and property of Maude's Games and its users.

Maude's Games does not sell, rent, or trade personal information provided through Cube Fall.

8. Advertising

The current version of Cube Fall is not intended to collect personal information for behavioral advertising by Maude's Games.

If advertising services, advertising networks, personalized advertising technologies, or advertising identifiers are introduced in a future version, this Privacy Policy will be updated to identify the applicable practices before those changes become effective, and any corresponding Google Play Data Safety disclosures will be updated to match.

9. Analytics

Cube Fall is currently designed so that players can enjoy the Game without creating an account. If Maude's Games introduces analytics technology in a future version to measure gameplay events, application usage, retention, performance, crashes, or feature interaction, this Privacy Policy will be updated to name the applicable service and the categories of information processed. The introduction of analytics will not automatically authorize the collection of

unrelated personal information.

10. Third-Party Platforms and Services

Cube Fall may be distributed through third-party platforms such as Google Play and may operate using services provided by the player's device or operating system. Google and other platform providers may process technical or account-related information independently under their own privacy policies and terms. Maude's Games does not control information collected directly by Google Play, the Android operating system, device manufacturers, mobile carriers, or other independent platform providers.

If future versions of Cube Fall integrate additional third-party services such as advertising networks, analytics providers, cloud storage, online leaderboards, multiplayer services, authentication providers, payment processors, social sharing systems, or push-notification services, this Privacy Policy will be revised as appropriate.

11. Payments and In-App Purchases

The current Privacy Policy does not represent that Cube Fall requires direct payment information to be submitted to Maude's Games. If paid downloads or in-app purchases are introduced, payment transactions may be processed by the applicable app-store or payment provider. Maude's Games will not directly receive complete payment-card information unless a future service specifically requires it and the Privacy Policy is updated accordingly.

12. Children's Privacy

Cube Fall is designed as a casual entertainment game and does not require users to provide personal information to play. Maude's Games does not knowingly use the Game to solicit personal information directly from children, and does not knowingly collect personal information from children under 13 (or the relevant age of digital consent in your jurisdiction) in a manner that would require parental consent under the Children's Online Privacy Protection Act (COPPA) or equivalent law.

[Confirm the Google Play Console "target age group" and "appeals to children" declarations for Cube Fall. If the Families Policy applies, this section must be expanded to confirm no behavioral advertising, no third-party analytics or ad SDKs that collect persistent identifiers from child users, and compliance with Google Play Families Policy Requirements.]

If a parent or legal guardian believes that a child has submitted personal information directly to Maude's Games, the parent or guardian may contact us at info@seekemhub.com. We will review the request and take reasonable steps to delete personal information when required by applicable law.

13. Data Sharing and Disclosure

Maude's Games does not sell or rent personal information associated with Cube Fall. Information may be disclosed only when reasonably necessary to provide technical services; investigate security or technical problems; respond to a user request; comply with a valid legal obligation; respond to lawful government or court requests; enforce applicable rights or agreements; protect users, Maude's Games, or others against fraud, security threats, or unlawful activity; or complete a legitimate business restructuring, acquisition, merger, or transfer, subject to applicable law.

Any service provider acting on behalf of Maude's Games should receive only information reasonably necessary to perform the relevant service.

14. Data Retention

Gameplay information stored locally on your device may remain there until you clear the Game's application data, the operating system removes the information, you reset the Game, you delete applicable saved information, or you uninstall the Game.

Information voluntarily submitted to Maude's Games through support communications may be retained for as long as reasonably necessary to resolve the request, maintain support records, investigate recurring technical problems, protect legal rights, or meet legal or regulatory requirements. Information that is no longer reasonably necessary may be deleted or anonymized as appropriate.

15. Data Security

Maude's Games uses reasonable administrative, organizational, and technical measures designed to protect information under its control against unauthorized access, disclosure, alteration, loss, misuse, or destruction. However, no electronic storage system, application, device, or method of Internet transmission can be guaranteed to be completely secure, and Maude's Games cannot guarantee absolute security.

16. International Users and GDPR

Cube Fall may be downloaded, tested, and played by users located outside the United States, including in the European Economic Area and United Kingdom.

Where the General Data Protection Regulation (GDPR) or UK GDPR applies, Maude's Games processes any personal information voluntarily submitted through support communications on the basis of legitimate interests (responding to your request, maintaining and securing the Game) or, where applicable, your consent. Subject to applicable law, you may have the right to access, rectify, or erase your personal information, restrict or object to its processing, and request data portability. Requests may be submitted to info@seekemhub.com.

If you voluntarily submit information directly to Maude's Games, that information may be processed in the United States or another jurisdiction in which an applicable service provider operates.

17. Privacy Rights

Depending on where you live and whether applicable privacy legislation applies to Maude's Games, you may have rights regarding personal information you have provided, including the right to request access, request correction, request deletion, request information about how data is used, request information about categories of data disclosed, opt out of the sale or sharing of personal information (Maude's Games does not currently sell or share personal information for cross-context behavioral advertising), exercise these rights without discriminatory treatment, withdraw certain permissions where legally applicable, and submit a privacy-related complaint or inquiry.

Requests may be submitted to info@seekemhub.com. We may need reasonable information to confirm the nature of your request before responding.

18. California Privacy Notice

California residents may have additional privacy rights under applicable California law (including the CCPA/CPRA), including the right to know, delete, correct, and opt out of the sale or sharing of personal information, and the right to non-discrimination for exercising these rights. Maude's Games does not sell or share personal information collected directly through Cube Fall for cross-context behavioral advertising. Privacy requests may be directed to info@seekemhub.com.

19. Governing Law

This Privacy Policy is governed by the laws of the State of California and applicable United States federal law, without regard to conflict-of-law principles, except where applicable local law requires otherwise.

20. Testing Versions

Cube Fall may be distributed through internal, closed, open, beta, pre-release, or other testing programs. Testers may voluntarily provide additional technical feedback, including bug descriptions, device details, screenshots, screen recordings, performance observations, gameplay feedback, and crash descriptions. Such information will be used primarily to evaluate and improve the Game. A testing version may differ from the final public release, and this Privacy Policy may be revised before or after public release if the Game's actual data practices change.

21. Changes to This Privacy Policy

Maude's Games may update this Privacy Policy to reflect Game updates, new gameplay functionality, new technical services, changes in third-party integrations, changes in privacy law, security improvements, advertising or analytics changes, or changes in business practices. When material changes are made, the Effective Date at the beginning of this document will be updated. Continued use of Cube Fall after an updated Privacy Policy becomes effective constitutes acknowledgment of the revised policy to the extent permitted by law.

22. Contact Us

Questions about Cube Fall, this Privacy Policy, technical support, or privacy rights may be directed to:
